

## Vircom Cleans up at Windows IT Pro 2004 Readers' Choice Awards

Results of the 3rd annual Windows IT Pro Readers' Choice Awards are out. More than 2,000 readers voted on over 700 products and services in 16 technology categories -and Vircom garnered overwhelming recognition!

"Few people know more about the best values in Windows technology products and services than Windows IT Pro readers - the people who actually do the buying on behalf of their organizations. By voting for the most outstanding products, IT professionals have rewarded excellence in the Windows technology market." -Karen Forster, editorial director, Windows IT Pro

### The people have spoken!

In an unprecedented win, Vircom's ModusGate™ ran away with three out of five Best Overall awards including Best Service and Support, Best Software and Most Innovative Product. ModusGate™ also won in the Anti-spam/Server Side category and ModusMail™ captured the top spot in the Mail Server category.

### Most Innovative Product

In a landslide victory, Windows IT Pro readers chose Vircom's ModusGate™ as the Most Innovative Product of 2004. ModusGate™ features Vircom's Modus3 anti-spam engine, which provides an out-of-the-box spam catch rate of 98.2 percent and 99.99 percent reliability against false positives.

### Best Software

With no end in sight to the problem of spam, it's no surprise that an overwhelming number of readers chose ModusGate™ as this year's Best Software winner.

### Antispam/Server Side

Spam - and spam fighters - have come a long way in a couple of years. ModusGate™ is designed for organizations that already have an email infrastructure that they don't want to modify. You can install ModusGate™ in front of any email server on any network type without reconfiguring or modifying your existing products.

### Mail Server

How the mighty have fallen. Readers' Choice newcomer Vircom ModusMail™ won the Best Mail Server award with nearly 38 percent of readers' votes, knocking last year's winner, Microsoft Exchange Server, into second place this year.

### Best Service and Support

Windows IT Pro readers handed Montreal-based Vircom the award for Best Service and Support. What sets Vircom apart from others in readers' eyes? Here's what Jeff Beadle, a network administrator at ISP Mako Internet had to say:

"Other companies I have worked with give you an auto response that says 'check out our Web site for your problem.' Not Vircom. I get a message back right away with an answer. I have been very pleased."
